Providing Value Since 1974

Sunar Investment, one of Turkey's rising stars in agriculture-based industry, exports to over 100 countries across six continents under its own brand. Backed by more than half a century of experience, a broad product portfolio, and a team of over 1,300 employees, Sunar Investment aims to become one of the world's leading agriculture-based industrial groups, leveraging its high production capacity, deep expertise, and extensive know-how.

Founded in 1974 by Senior Agricultural Engineer Hacı Nuri Çomu, Sunar Investment has today become a group of companies that includes businesses producing for the food, livestock, textile, paper, corrugated cardboard, chemical industry and construction sectors.

With bold and strategic investments, Sunar Investment offers a wide range of high value-added products. Its first industrial enterprise is Sunar Un ve Yem, which is also the first industrial establishment in Osmaniye. At Sunar Un ve Yem, varieties of bread flour and speciality whole wheat flours are produced. Located within the same complex, Sunar Yem manufactures cattle, sheep, and poultry feed in powder, granule, and pellet forms.

Another company under Sunar Investment is Sunar Mısır, which produces starch, modified starches, sorbitol-maltitol, glucose, and glucose-fructose syrups. At Elita Gıda, vegetable oils for retail and food service consumption are produced and marketed.

NÇS Tarım operates in the production and sale of fresh and dried fruits as well as chocolate. Sunar NP produces Türkiye's first certified biodegradable thermoplastic starch and biopolymer. All international commercial activities of the products produced by SUNAR are carried out by Sunar Pazarlama.

To conduct agricultural commodity trading and supply raw materials to global customers, Sunar Agro was established. Investments have also been initiated in Sunar Lidaş for licensed warehousing activities.

SUNAR

"Sağlıklı Yem Kazanç Sunar!"

Sunar Yem is a subsidiary of Sunar Investment.
